INTRODUCTION

The ERIC System

ERIC, an acronym for Educational Resources Information Center, is a nationwide information system designed and supported by the National Institute of Education. Since June 1964, ERIC has been dedicated to the progress of education through the dissemination of education research results, research-related materials, and other resource information that can be used in developing more effective educational programs. ERIC consists of a coordinating staff in Washington, D.C. and a number of clearinghouses located at universities or with professional organizations across the country.

Through this network of specialized centers or clearinghouses, each of which focuses on a specific field in education, information is acquired, evaluated, abstracted, indexed, and announced in ERIC reference products. These reference publications, *Current Index to Journals in Education (CIJE)* and *Research in Education (RIE)*, thus provide access to reports of innovative programs and significant efforts in educational research, both current and historical, which might otherwise not be made available.

CIJE is a monthly index to 700 educational periodicals. The majority of these publications represent the core periodical literature in the field of education. The other publications indexed in *CIJE* represent coverage devoted to peripheral literature relating to the field of education. This unique feature assures access to important articles published in those periodicals which fall outside the scope of education-oriented literature. *CIJE* is published by Macmillan Information, 866 Third Avenue, New York, New York 10022. Subscription rate: U.S.—\$44.00 a year; single copy—\$4.00; semiannual and annual cumulative indexes—\$45.00. Foreign subscriptions have postage added.

RIE is a monthly abstract journal announcing recently completed research and research-related documents in the field of education. *RIE* is published by the Superintendent of Documents, U.S. Government Printing Office (G.P.O.), Washington, D.C. 20402. Subscription rate: U.S.—\$38.00 a year; foreign—\$47.50; single copy, U.S.—\$3.25. Semiannual and annual cumulative indexes are also available from G.P.O.

ERIC Products

ERIC Products is an annual bibliography of those publications of the ERIC Clearinghouses which reflect information analysis activities. In addition to the bibliographic activities which are conducted to increase dissemination of information on document availability, each clearinghouse also engages in information analysis activities, which include the preparation of bibliographies, research reviews, interpretive studies, and similar publications, designed to list, organize, review, and synthesize the literature of educational research to meet the needs of the user community.

The publication includes substantial bibliographies, review papers, and state-of-the-art papers which are identified as ERIC information analysis publications; it excludes routine brochures, accession lists and short notes published in clearinghouse newsletters. This sixth issue of *ERIC Products* lists 396 publications for Fiscal Year 1973 (July 1972 through June 1973).

The full text of 290 of the 396 documents cited in this bibliography is available in two forms: microfiche (MF)—a 4" X 6" sheet of microfilm, on which up to 70 pages of text are reproduced, and hard copy (HC)—a reproduction of the document on paper at the original size, and may be ordered from the ERIC Document Reproduction Service (EDRS). In most cases if the document is not available from EDRS, an alternate availability is given with the citation.

For these documents available from EDRS, whether in microfiche or hard copy form, the following requirements apply:

1. All items must be ordered by ED number.
2. Book rate or library rate postage is included in the prices. The difference between book rate or library rate and first class or foreign postage (outside the continental United States) rate will be billed at cost.
3. Payments must accompany orders under \$10.00.
4. All orders must be in writing; no phone orders.

Order, by ED number only, from:

ERIC Document Reproduction Service (EDRS)
Post Office Drawer O
Bethesda, Maryland 20014

Further details on ordering documents and order forms are available on request by writing to EDRS at the above address.

To correspond with the issues of *RIE*, the references in this bibliography are arranged by the clearinghouse's alpha prefix. Within each clearinghouse, entries without identified personal authors are listed before those with authors. For each entry, the following items of information, as appropriate and in the form supplied by the individual clearinghouses, have been given:

1. Personal author(s)
2. Title
3. Series name and number
4. Journal reference
5. Date of publication, if not already included in a journal reference

ERIC CLEARINGHOUSES

Each clearinghouse, as well as acquiring, reviewing, abstracting and indexing the documents announced in *Research in Education*, also prepares bibliographies and interpretive summaries of research which also appear in *Research in Education* and are disseminated through the ERIC Document Reproduction Service. Because clearinghouses have limited resources for providing detailed replies to inquiries for information on specific topics, educators are urged to subscribe to *Research in Education*, to search for desired information.
